

IMPORTANT STUDENT INFORMATION

012 G14 (2G-F94 (DL))

Commanders Safety Course (CSC)

Interactive Multi-Media Instruction (IMI) Sustainment Training

Distributed Learning Courseware

Original Date: 08 March 2004

The Chief of Staff of the Army (CSA) requires all senior officers and enlisted soldiers to complete the above courseware.

Students having a resident reservation for course number: 2G-F22 Brigade and Battalion Pre-Command (PCC) now Do Not have to manually enroll in the CSC. The automated student reservation/enrollment process took effect 04 March 2004.

Army Training Requirements and Resources System (ATRRS) will programmatically create a student reservation in the CSC as long as a student has a resident reservation for PCC.

ATRRS will autofill student Army Knowledge On-Line (AKO) email addresses with the student reservation to Army Training Support Center (ATSC), Fort Eustis, Va.

CSC student reservations will be transmitted daily to ATSC for processing.

Once the ATSC enrollment process is completed, the Army Interim Distributed Learning Management System (AIDLMS) will forward an enrollment email to students AKO email account.

AIDLMS allows students the ability to access their active and history data, and update their personal data. Use the below URL to access student records.

https://www.aimsrdl.atsc.army.mil/secured/accp_top.htm

If a student already has a userid and password for the system, key in required data and click the [SIGN-IN] button.

If a student does not have a userid and password for the system; click the [REGISTER] button and create a unique userid and password. Once the student has successfully created a userid and password, the system will allow the student access to the system. Once the student is in the system, click the [ACTIVE] button.

The CSC has five IMI modules and five examinations as follows:

CS1200 edition B GENERAL INFORMATION.

CS1205 edition B RESOURCE NAVIGATOR.

CS1210 edition B RISK MANAGEMENT.

CS1215 edition B UNIT SAFETY PROGRAM TOOL (USPT).

CS1220 edition B SMALL UNIT SAFETY.

Once the final examinations have been completed the system will forward an email completion to the students AKO email address. ATRRS will be notified after each examination and final course completion.

Please note the following system requirements.

Make sure the student is running the latest version of Internet explorer 5.5 or above and have Multi-media Flash player installed.

http://www.macromedia.com/shockwave/download/download.cgi?P1_Prod_Version=ShockwaveFlash

Make sure that if a student has a "Pop-up blocker" on their computer have the student disable that software program. Having this blocker could cause the multi-media "Flash player" not to run.

If you have any concerns, comments, or need help, please contact by email Sectionb@atsc.army.mil or by phone com: (757)878-5715/2079 or DSN: 826-5715/2079.
